**Subject:** Comments on the NOP

Dear Ms. Short:

In was unable to submit comments on the above referenced NOP by yesterday's deadline. Please note for the record that SDWA adopts the comments submitted by CDWA. As we are only in the initial stages of the environmental review process, I will be making further comments as we progress regarding the potential impacts from changes, the how the NOP is premature given the lack of a defined project, the necessity of maintaining and/or improving the requirements for salinity protection, and the need to establish and increase minimum flows on the San Joaquin River. JOHN
